Individual Projects:

One of the most important aspects of every student's college application is extracurricular activities. During this camp, all students work with mentors, local companies, or universities on individual projects that reflect their interests and bolster their application. Please list two disciplines that most interest you. We will use this to arrange a mentor and project during the camp. In the past, some of our students chose: law, architecture, music, arts, entrepreneurship (building a company), television, science, engineering, robotics, advanced math, computer science, community service, etc.
